Vol. 23 1981

# INDEXES

## KEY TO ISSUES

| | | |
|---|---|---|
| Part 1 | pages 1- 56 | January |
| 2 | 57-112 | March |
| 3 | 113-168 | May |
| 4 | 169-220 | July |
| 5 | 221-276 | September |
| 6 | 277-332 | November |

## REGULAR FEATURES AND SHORT ITEMS

Book reviews ..... 37, 88, 144, 316
Branch Officers meeting ..... 268
Comment ..... 5, 61
Controversy — hazards of ionising radiation ..... 27
Correspondence ..... 55, 108, 164, 216, 272
In other journals ..... 40, 90, 144, 199, 250, 318
Institute file ..... 30, 52, 102, 158, 211, 264, 329
Minitest questions ..... 197, 272
People ..... 53, 104, 162, 214, 270
Products and services ..... 46, 97, 150, 206, 258, 326
Profiles ..... 56, 112, 168, 220, 276, 332
Services Inspection Group ..... supplement to July issue
Standards News ..... 40, 144, 198, 250, 318
Symposium reports
- Ultrasonic imaging ..... 26
- New Ideas in NDT ..... 86
- Eddy current methods ..... 87
- Acoustic emission ..... 142
- Specification and checking of equipment ..... 196

Trade News ..... 38, 44, 90, 94, 148, 198, 200, 253, 316, 322

## AUTHOR INDEX

ADHIKARI, B. C.
The measurement of longitudinal ultrasonic wave velocity in solids ..... 130

AL-HELALY, M. M. H.
Ultrasonic velocity measurements in 316 austenitic weldments ..... 288

BOND, A. R.
Reliability and NDT ..... 80

CLAYTON, R. F.
The radiography of Swaythling bridge ..... 227

COFFEY, J. M.
The PISC exercise: a discussion of its relevance to ultrasonic inspection of pressure vessels ..... 71

DE GRAAF, E. A. B.
Conventional and innovative applications of magnetic rubber ..... 75

DONALD, E. P.
Fatigue detection in structural elements (bleeding structures) ..... 181

GOWRISANKARAN, S.
An experimental verification of the basic principles of eddy current testing of seamless steel tubes ... 82

HALMSHAW, R.
The present state and future of industrial radiology 15

HIGHAM, E.
A summary of the PISC-1 programme ..... 175

HOTHAM, C. A.
Microfocal radiography using the electron microscope ..... 306

HUNT, C. A.
The effect of masking in TV image intensifier fluoroscopy ..... 12

HUGGINS, B. E.
Radiography with low energy radiation ..... 119

IBRAHIM, S. I.
The influence of crack topography and compressive stresses on the ultrasonic detection of fatigue cracks in submerged arc welds ..... 233

JESSOP, T. J.
Ultrasonic detection and measurement of defects in stainless steel — a literature survey ..... 293

JONES, R. W.
Microfocal radiography using the electron microscope ..... 306

KAPRANOS, P. A.
Ultrasonic velocity measurements in 316 austenitic weldments ..... 288

KILCULLEN, M. B.
Measurement of residual thickness of Cor-Ten steel using an EMA probe ..... 138

LEDBETTER, H. M.
Predicted single-crystal elastic constants of stainless steel 316 ..... 286

LOOSEMORE, G. R.
The use of acoustic emission during bend testing to assess the quality of steel-to-aluminium explosive weldments ..... 7

Vol. 23 1981

HUGGINS, B. E.
Radiography with low energy radiation ..... 119

IBRAHIM, S. I.
The influence of crack topography and compressive stresses on the ultrasonic detection of fatigue cracks in submerged arc welds ..... 233

JESSOP, T. J.
Ultrasonic detection and measurement of defects in stainless steel — a literature survey ..... 293

JONES, R. W.
Microfocal radiography using the electron microscope ..... 306

KAPRANOS, P. A.
Ultrasonic velocity measurements in 316 austenitic weldments ..... 288

KILCULLEN, M. B.
Measurement of residual thickness of Cor-Ten steel using an EMA probe ..... 138

LEDBETTER, H. M.
Predicted single-crystal elastic constants of stainless steel 316 ..... 286

LOOSEMORE, G. R.
The use of acoustic emission during bend testing to assess the quality of steel-to-aluminium explosive weldments ..... 7

MARKHAM, M. F.
Investigations or errors in ultrasonic thickness meters for use on glass reinforced plastics ..... 187

NEILSEN, N.
P-scan system for ultrasonic weld inspection .... 63

NEUMAIER, P.
Testing steam generator and condenser tubes on site ..... 20

PAGE, G. G.
Radiography can find corrosion! ..... 244

PEAPELL, P. N.
The use of acoustic emission during bend testing to assess the quality of steel-to-aluminium explosive weldments ..... 7

PIGGINS, J. M.
The ultrasonic B-scan in medical diagnosis ..... 191

PULLEN, D. A. W.
The radiography of Swaythling bridge ..... 227

RAVENHALL, F. W.
Listen to it crack — an introduction to acoustic emission ..... 135

SANDFORD-FRANCIS, C. H. A.
Fail-safe magnetic permeability inspections of high-strength (low alloy) critical aerospace components subject to fatigue failure ..... 241

SERABIAN, S.
Ultrasonic size determinations of inclined flaws — use of response envelope width ..... 281

TAYLOR, J. L.
Microfocal radiography using the electron microscope ..... 306

TOPP, K.
The use of acoustic emission during bend testing to assess the quality of steel-to-aluminium explosive weldments ..... 7

VENTKATESAN, S. PRESANNA
An experimental verification of the basic principles of eddy current testing of seamless steel tubes ... 82

VROMAN, J.
The influence of magnetic properties on eddy current testing of a tube ..... 307

WHITAKER, J. S.
Ultrasonic detection and measurement of defects in stainless steel — a literature study ..... 293

WHITTAKER, V. N.
The influence of crack topography and compressive stresses on the ultrasonic detection of fatigue cracks in submerged arc welds ..... 233

WHITTAKER, V. N.
Ultrasonic velocity measurements in 316 austenitic weldments ..... 288

WHITTINGTON, K. R.
Electrodynamic probes — principles, performance and applications ..... 127

WHITTLE, M. J.
The PISC exercise: a discussion of its relevance to ultrasonic inspection of pressure vessels ..... 71

## SUBJECT INDEX

ACOUSTIC EMISSION
The use of acoustic emission during bend testing to assess the quality of steel-to-aluminium explosive weldments. G. R. Loosemore; P. N. Peapell; K. Topp ..... 7
Listen to it crack — an introduction to acoustic emission. F. W. Ravenhall ..... 135

AUSTENITIC STEELS
Ultrasonic velocity measurements in 316 austenitic weldments. P. A. Kapranos; M. M. H. Al-Helaly; V. N. Whittaker ..... 288
Ultrasonic detection and measurement of defects in stainless steel — a literature survey. J. S. Whitaker; T. J. Jessop ..... 293

BLEEDING STRUCTURES
Fatigue detection in structural elements (bleeding structures). E. P. Donald ..... 181

CONFERENCE REPORT — NDT 81 ..... 311

CORROSION DETECTION
Radiography can find corrosion! G. G. Page .... 244

EDDY CURRENT TESTING
Testing steam generator and condenser tubes on site. P. Neumaier ..... 20
An experimental verification of the basic principles of eddy current testing of seamless steel tubes. S. Presanna Venkatesan; S. Gowrisankaran ..... 82
The influence of magnetic properties on eddy current testing of a tube. J. Vroman ..... 307

ELASTIC CONSTANTS
Predicted single-crystal elastic constants of stainless steel 316. H. M. Ledbetter ..... 286

FATIGUE DETECTION
Fatigue detection in structural elements (bleeding structures). E. P. Donald ..... 181
The influence of crack topography and compressive stresses in the ultrasonic detection of fatigue cracks in submerged arc welds. S. I. Ibrahim; V. N. Whittaker 233
Fail-safe magnetic permeability inspections of high-strength steel (low alloy) critical aerospace components subject to fatigue failure. C. H. A. Sanford-Francis ..... 241

FLUOROSCOPY
The effect of masking in TV image intensifier fluoroscopy. C. A. Hunt ..... 12

MAGNETIC TESTING
Conventional and innovative applications of magnetic rubber. E. A. B. de Graaf ..... 75
Fail-safe magnetic permeability inspections of high-strength (low alloy) steel critical aerospace components subject to fatigue failure. C. H. A. Sanford-Francis ..... 241

ON-LINE INSPECTION
British Gas on-line inspection Centre ..... 246

P.I.S.C.
The PISC exercise: a discussion of its relevance to ultrasonic inspection of pressure vessels. M. J. Whittle; J. M. Coffey ..... 71
A summary of the PISC-1 programme. E. Higham 175

RADIOLOGY/RADIOGRAPHY

The effect of masking in TV image intensifier fluoroscopy. C. A. Hunt ..... 12

The present state and future of industrial radiology. R. Halmshaw ..... 15

The hazards of ionising radiations ..... 27

Radiography with low energy radiation. B. E. Huggins ..... 119

The radiography of Swaythling bridge. D. A. W. Pullen; R. F. Clayton ..... 227

Radiography can find corrosion! G. G. Page .... 244

Microfocal radiography using the electron microscope. C. A. Hotham; R. W. Jones; J. L. Taylor... 306

RELIABILITY OF NDT

Reliability and NDT. A. R. Bond ..... 80

TUBE TESTING

Testing steam generator and condenser tubes on site. P. Neumaier ..... 20

ULTRASONIC TESTING

P-scan system for ultrasonic weld inspection. N. Neilsen ..... 63

The PISC exercise: a discussion of its relevance to ultrasonic inspection of pressure vessels. M. J. Whittle; J. M. Coffey ..... 71

Electrodynamic probes — principles, performance and applications. K. R. Whittington ..... 127

The measurement of ultrasonic wave velocity in solids. B. C. Adhikari ..... 132

Measurement of residual thickness of Cor-Ten steel using an EMA probe. M. B. Kilcullen ..... 138

A summary of the PISC-1 programme. E. Higham 175

Investigations of errors in ultrasonic thickness meters for use on glass reinforced plastics. M. F. Markham 187

The ultrasonic B-scan in medical diagnosis. J. M. Piggins ..... 191

The influence of crack topography and compressive stresses on the ultrasonic detection of fatigue cracks in submerged arc welds. S. I. Ibrahim; V. N. Whittaker ..... 233

Ultrasonic size determinations of inclined flaws — use of response envelope width. S. Serebian ..... 281

Ultrasonic velocity measurements in 316 austenitic weldments. P. A. Kapranos; M. M. H. Al-Helaly; V. N. Whittaker ..... 288

Ultrasonic detection and measurement of defects in stainless steel — a literature survey. J. S. Whitaker; T. J. Jessop ..... 293

WELD INSPECTION

The use of acoustic emission during bend testing to assess the quality of steel-to-aluminium explosive weldments. G. R. Loosemore; P. N. Peapell; K. Topp ..... 7

P-scan system for ultrasonic weld inspection. N. Neilsen ..... 63

The influence of crack topography and compressive stresses on the ultrasonic detection of fatigue cracks in submerged arc welds. S. I. Ibrahim; V. N. Whittaker ..... 233

Ultrasonic velocity measurements in 316 austenitic weldments. P. A. Kapranos; M. M. H. Al-Helaly; V. N. Whittaker ..... 288

Ultrasonic detection and measurement of defects in stainless steel — a literature survey. J. S. Whitaker; T. J. Jessop ..... 293
